ARTEMIS WANG

PARTNER PROGRAMS | COMMUNITY OPERATIONS | AI PRODUCT OPERATIONS

New York, NY | Artemisnewyork@outlook.com

SUMMARY

Partner and community operations professional with experience building creator programs, launching consumer AI products, and running cross-border businesses. Built recruitment, onboarding, evaluation, incentive, and revenue-sharing processes; managed teams and cross-functional execution; and used research and community feedback to improve adoption and retention. Experience spans 500+ creator and influencer partnerships, international localization, and hands-on AI quality evaluation.

PROFESSIONAL EXPERIENCE

Tantan (Hello Group) **Aug 2021 – Aug 2022**

Operations Lead, Voice Communities *Beijing, China*

- Built the creator operating model end to end, covering sourcing, recruitment, onboarding, evaluation, partnership terms, and revenue sharing; established the platform's first creator commercialization framework for virtual gifting, rewards, and partner compensation.
- Designed and launched domestic and international partner payment and compliance processes single-handedly, including integrating a third-party payment provider to pay partners in Taiwan.
- Redesigned partner incentives and community programs, increasing the feature's daily active users by 67%.
- Rebuilt creator onboarding using user research and controlled experiments, increasing first-week room launches by 600%.
- Led a team of interns on expansion to Taiwan, Hong Kong, and Germany, covering market research, local culture, competitor analysis, cold-start content, and creator recruitment with agencies, influencers, multichannel networks (MCNs), and content partners.
- Set up recurring creator and core-user feedback programs and brought insights to product teams, informing usability, interface, and creator-experience improvements.

Momo Inc. (now Hello Group, Nasdaq: MOMO) **Apr 2020 – Jun 2021**

Senior Product Operations, AI Products (Deep Lab) *Beijing, China*

- Managed 500+ creator and influencer partnerships for consumer AI products ZAO and Moxie, increasing daily active users by 45% and active users by 200%.
- Built partner contracting with Legal and Finance, including contract templates, signing workflows, and payment approvals; owned signing for both MCN agencies (corporate contracts) and individual creators.
- Trained creators on product features and usage, and served as the operations owner relaying product requirements and improvement recommendations to Deep Lab engineers to improve the product and user retention.
- Led operations for ZAO and Moxie (face, hair, and makeup transformation) from concept through launch, and led a team of interns on overseas expansion to Japan, South Korea, and Vietnam, covering market research, consumer preferences, competitor analysis, local culture and religious considerations, localized marketing, cold-start content, and creator recruitment; turned user feedback into three product iterations that raised feature engagement and content-save rates by 40%.
- Built a beauty creator program from launch that generated 20,000+ AI creations; one festival-makeup topic reached 35% next-day retention.
- Organized real-model shoots with a leading Beijing salon partner, coordinating about 500 participants and 3,000 samples in one week; built datasets of 40,000+ images and cut data-preparation time by about 40%.
- Helped define AI-output quality standards and proposed an internal batch-testing tool that let the team review results by style and angle and add approved outputs to the content library in one click.
- Co-developed content standards and community guidelines with the corporate security and risk-control team to support responsible product growth.

ENTREPRENEURIAL EXPERIENCE

Esoteric Studios **2023 – Present**

Founder and Brand Director, Cross-Border Professional Beauty E-Commerce

- Introduced Korean professional salon and skincare brands to Chinese-speaking consumers, managing suppliers, logistics, e-commerce operations, positioning, and content.

- Built trusted relationships with salon owners in Korea, recording product tutorials not available online and turning them into standard operating procedures (SOPs) for customers.
- Built social communities of 27,000+ followers and 100,000+ content views through educational content.

Missingcity boutique **2017 – Present**
Founder and Curator, Online Designer Boutique

- Built and run a small business introducing emerging international designers to global consumers, managing designer relationships, selection, and international shipping.
- Grew a 43,000+ follower community across Taobao, RED, and WeChat with a 65%+ repeat-purchase rate, generating RMB 700K+ in Taobao revenue over two years without paid advertising.

OTHER EXPERIENCE

No Space Gallery | Beijing, China | Spring 2023 *Exhibition Assistant Intern (part-time)*

- Supported curatorial staff on exhibition installation, artist outreach, and public events in a small gallery team.
- Edited promotional materials and coordinated preparation and launch of the gallery's online exhibition.

Communication University of China, School of Drama and Film | Beijing, China | 2022 – 2023 *Project Assistant to Dr. Wang Naliu*

- Supported "Beauty and Sharing," an international cultural exchange program co-produced by CCTV and the Ministry of Culture and Tourism, and the Second China Musical Creation Forum exhibition.
- Handled contracts, publicity, and fundraising support; conducted audience research that informed localization for international audiences.
